From the Chairman's Desk

Dear Reader

I deem it to be a matter of immense pleasure and honour for me to address you all through the fourth newsletter of CPSM College of Education. It is indeed very heartening to witness that the college has carved a name for itself in the academic scenario of the region. Education is the most powerful tool to bring desirable changes in our personality and also to bring positive changes in our society. It is the only medium which enables you to move from darkness to brightness.

It is said that when the unexpected or impossible happens, you are caught off balance. In this third decade of the millennium, Indian economy was at an inflection point but we were unexpectedly hit by a pandemic wave. As the nation went in a lockdown, its impact was felt across all strata of our society. The youth had to shoulder the burden of the system collapse hurting the education sector. But unfazed by the unexpected crisis, our dynamic and professional CPSM rose to the challenge and set about energizing hundreds of young minds to fight the adversity. They rapidly retooled, redesigned and delivered a significant body of knowledge to deliver seamless digital learning engaging the students with sufficient skills, knowledge and attitude to meet the challenges of the society.

From the Director's Desk

Dear Reader

It is fact that education is a dynamic process in which new-fangled thoughts are supplemented persistently to construct the education in progressive approach. It is also realism that the nation is as strong as its education system. It is the education and its system that makes the country great, strong and developed.

Teacher is a part and parcel component of education system on which all entities depend upon. Teacher does not only make planning of education system but also execute, monitor and evaluate the achievement. CPSM College of Education plays a very indispensable role in developing personality of teachers. It has well-developed infrastructure including e-learning, psychology laboratory as well as established many cells and committee to cater the need of students. The college has achieved numerous achievements and has a reputation for producing highly motivated and exceptional teachers. No matter who you are, no matter what you did, no matter where you've come from, you can always change, become a better version of yourself.

With best wishes for your bright future

(Col. S.S. Dhankhar)

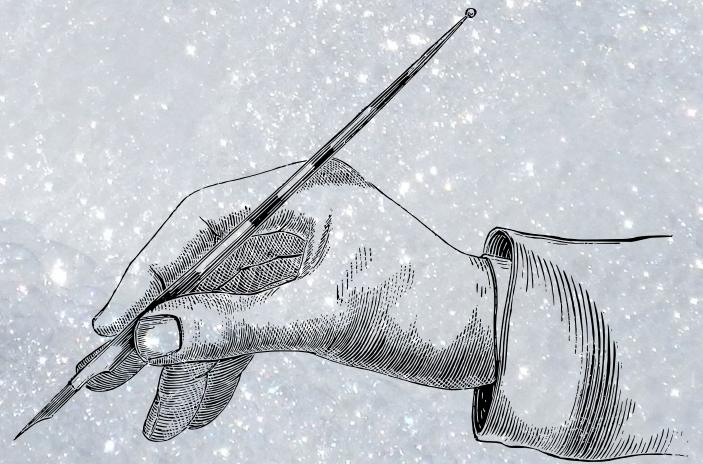

From the Editorial Team

Dear reader

We are back with yet another issue. Though, the events of high importance kept us all busy but we are never too far away, not to reach our readers. We are late, but we are here! Hope you and your family are safe and are following the social distancing norms. The Covid-19 Pandemic has brought us all in an unprecedented situation, and we have challenging and uncertain times ahead.

The Editorial team takes this opportunity to express its sincere gratitude to our Director Col.S.S.Dhankhar, for entrusting us with the responsibility of adding fourth newsletter to the history of CPSM. We thank Management for being a constant support throughout the process, from the conceptualization of the idea to the last stage of publication, of this grand work by our team. I hope you enjoy going through this newsletter and will also send us your opinions and suggestions to improve it further. We wish you all happy and fun-filled days with your loved ones. May God Almighty keep us safe and Healthy.

With best regards,

Annual report was presented by the Director of CPSM and other sister institutions, summing up the events of the whole year.

2020...The 'Lockdown' year

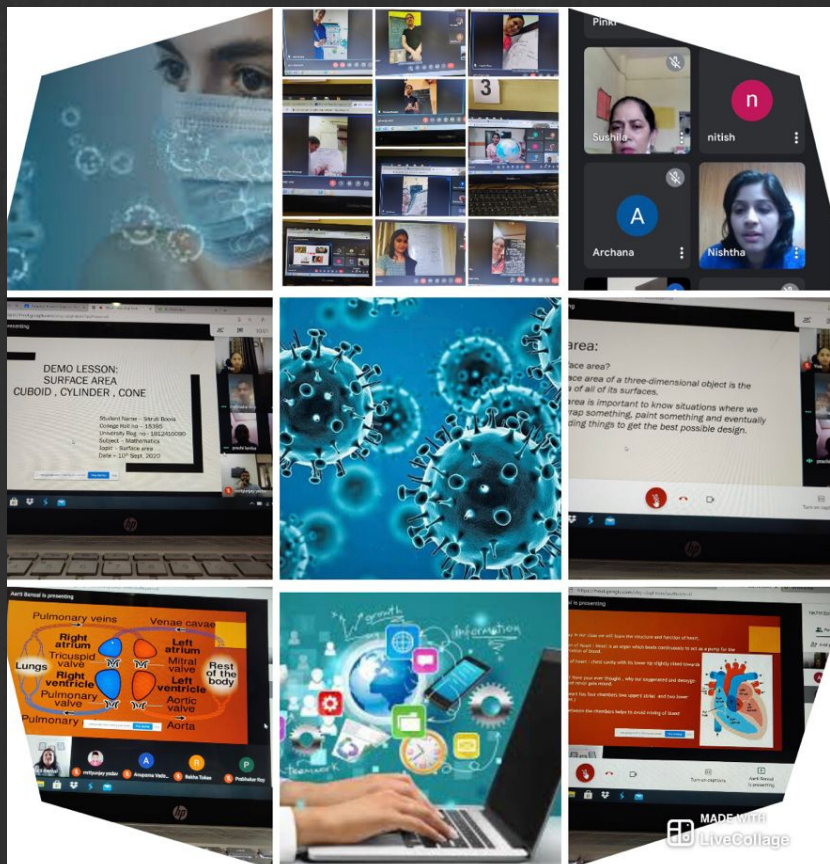

From March, the lockdown was an overwhelming experience for all, those who spent most of their time out of the house as well as those confined to their homes. For us... locked down at our homes, technology was a saviour as we were able to do many things virtually as while staying indoor to be safe. With such unprecedented times, we had two choices: stay away or step in. And technology chose to step in. Step in and help in the cause of allowing children to continue their education, people to shop online and work from home and governments to continue to function. Even after initial setbacks, mankind is putting up a brave fight and is using new-age technologies to restore some sanity. These technologies are not only helping fight the current health pandemic but will, in the future, change how we deal with recurrence of such health scares.

One of the many technological solutions that have been adopted by various countries is WFH i.e. Work From Home. With the lockdown in place, more than 3 billion people, excluding the essential workers like defence and healthcare officials, have been pushed to work from home. Today, we only need a laptop and a good Internet connection to access our office server, work on our project and deliver the desired outcomes. WFH has many benefits which include faculties being safe from getting infected, practicing, and maintaining social distancing with ease and being comfortable while working.

New vista of learning

With the onset of globalization, industrialization and development, we have made tremendous progress in all walks of life. But we didn't have any idea about how this '2020' would be changing our lives drastically. The COVID-19 pandemic has substantially changed the way we teach and learn. Corona virus has undoubtedly accelerated the use of technology among the crowd. We all have witnessed the increased use of technology in healthcare, communications, online transactions etc. Although, technology cannot put the pandemic to an end, but it can surely control the spread of this deadly virus.

To accomplish the current challenges in the field of education, CPSM initiated the concept of ONLINE classes for all the students. Online classes provided more comfortable learning and teaching environment for the students and teachers as well. All the pending theory classes, assignments and other requirements as well as internal theory exams and practicals were conducted through online mode. This was a noval experience for the students and faculties during the noval corona virus threat.

Mission Admission

The registration & counselling committee directed, encouraged and inspired the prospective students for enrolling their admission in CPSM. As a result, in this session 2020-22, 100% seat inclusion was seen in M.Ed. and B.Ed. course. So, this year admission rate was very high & had achieved the target with the total 297 admissions against the total intake of 300 seats.

Extension lectures & workshops

- From 20th Jan 2020 to 3rd Feb 2020, 15-days workshop on 'Research Methodology' was conducted by Dr. D.N. Sansanwal, Former Head and Dean, Deptt. Of Education, Devi Ahilya University, Indore for M.Ed. students.
- An extension lecture on 'Pedagogical Analysis' was conducted on 9th Jan 2020 by Dr. Renu Bala Nandal, Assistant Professor, C.R. College of Education, Rohtak.
- In CPSM, faculty members are improved through Internal faculty development programmes (FDPs) in order to deal with the rapid changes and shifting paradigms in education. Topics like Mental Health, Communication Skills, Creativity, Role of Women in Economic Development are some of them.
