FROM THE CHAIRMAN'S DESK

Education is the basis of all progress and it is possible only, if men and women are equally well-educated. It is for this very reason that we forayed into education, about 14 years ago. The entire purpose of education is not to restrict itself to imparting bookish knowledge only but inculcate humanitarian values like wisdom, compassion, courage, humility, integrity and reliability in the students.

At CPSM we impart education that is based on conscience and we rear a breed of young minds that are bustling with self confidence, motivation and ever ready to take up challenges. The campus, sports and academic facilities all bear testimony to this effort. In order to promote an internationally acceptable education, our key focus has been on faculty development providing continuous teacher training in order to deliver real value education and excellence in academics. Teachers are trained not only to teach well but are also expected to inspire confidence and trust in their students and become role models.

Our institution encourages students to learn about themselves, while at the same time offering support and guidance to practice decision-making and social skills. We are confident that this college is the best place for teacher's training. We welcome students active interest and involvement in the progress and activities.

MESSAGE FROM THE PRINCIPAL

Education is not merely acquirement of facts but also of values which help us to improve the different facts of mankind. A pivotal role of education lies in shaping the personality of a child into a healthy mind and happy soul, who is not only equipped with 21st century skills and aptitude required for academic excellence but helping him face the challenges of life in a balanced and harmonious way. Therefore, the system of education should work as a catalyst in making each child a balanced human being having his core strengths embedded in the learning experiences, emanating from our rich socio-cultural roots.

Here, at CPSM college of education, we enterprise to map academic excellence with a good human value system, which in myriad ways is ingrained in the culture of college. To achieve this, we strongly, feel that a paradigm shift in the minds of all stake holders should take place so that when the college becomes the hub to initiate and formalize education it has its tenets enshrined in a good value system. Our commitment to such education will always persist in all our endeavors. Academic excellence with character and personality development is our ultimate goal. The well chalked out academic and co-curricular program enables the students to attain their full potential to develop sound work habits. Our college has a unique platform that gives students a plethora of unparalleled opportunities to experience the joy of learning, the wonders of new knowledge and to unearth their limitless potential and capabilities.

When you become a part of the CPSM family, we leave no stone unturned to guide, mentor, nurture and prepare you to meet the global requirements-both personal and professional. Our gift to you and our nation are strong and ethical leaders who will shape and change the destiny and future of the world.
